

Guru- Upadesa

Let us not waste our energy in all kinds of undesirable activities but just focus on the growth of Krsna consciousness. Then Krsna will reward us in most wonderful ways. I can tell you from my experience. I ventured into all kinds of project which required a lot of resources, lots of funding, and I plunged into them with the confidence that if I do something for Krsna, Krsna will provide. And I can tell you from my own experience, Krsna did provide, because Krsna is there, he is the Supreme Personality of Godhead. We see that if a rich man has a loyal servant and if servant goes to do something for the master, doesn't the master provide? But does the servant have to go and get everything for the master? No, the rich man will provide for everything for the servant to serve him. Now when we are serving the Supreme Personality of Godhead who is the supreme proprietor of everything, who is the supreme controller, why shouldn't He provide.
