Day 13 -

Topic - A Glow worm in front of the Sun

By Gauranga Darshan Das

Notes -

- Person who has completely dedicated for the service of krsna and to glorify and spread the topics of krsna. Even the severest material circumstances can not impede the activities of pure devotees of SPOG. All the krsna pastimes are nectar and it can help one devotee one will able to remember at the time of death. When we leave the life in kc life we can leave the body also. The art of leaving and living are taught by Srila Prabhupada by his personal examples.
- Sometimes exalted devotee also run in some confusion but that confusion should not taken as an ordinary or materialistic but it is a part of krsnas pastimes that they can only enhance the sweetness of lord and We don't have licence to minimize the exalted position of great devotees like brahmaji just because he has done something in krsnas pastimes.
- Seeing krsna with playful experience with all cowherd boys brahma becomes confused and want to test krsna and brahma came and steal all the cowherd boys and calves of krsna. And krsna would expand his forms innumerable calves and cowherd boys. Although brahma has stolen all his calves and boys, krsna is performing is pastimes with his own expansion.
- And Brahma comes and sees in vrindavana that calves and gopas were intact and he was confused and bewildered than krsna would reveal to brahmaji that all this calves were his own expansion and after that brahmaji comes in his sense and offer obeisances unto him and prays unto him and krsna forgives him.
- Sadhu prstham you have inquired in a very super manner because parikshit maharaj was asking deep eagerness and inquistive of finest details of krsna to sukhdeva goswami.
- Its difficult to develop interest in hearing about krsna. SP said, unless one is advanced in kc one cannot stick to hearing the pastimes of krsna constantly.
- Without advancement in spiritual life than one cannot hear about krsna constantly.
- When we hear krsnas pastimes with love and devotion the same pastimes becomes newer and newer eventhough you heard this BVL several times.
- The more you discuss krsnas pastimes, the more you increase your love for krsna. And the pastimes of krsna will reveal itself more to you.
- The more you read with attention and affection, the more this pastime will reveal you.
- SB is non different than krsna, it is the book incarnation of krsna. To the degree you have favorable intention in our friendship with that person. If the other person detects some thing unfavorable intentions in us or some mallacious intent than person will not open us.
- The friendly exchange b/w two people is actually depends on frequency of their interaction. Similarly, SB is a person and if our agenda is studying SB is not pure than SB will not reveal to you than all this pastimes seems like information.
- SB is meant to study to understand more about krsnas qualities and render service unto krsna and love him and offer obeisances unto him. We read SB to recollect our consciousness with krsna and perform bhakti yoga.
- The more we read pastimes, the more that pastimes has to reveal to ourselves. SB is not

like a newspaper that you read today and that info in newspaper is relevant today and after 10 days that is not relevant. SB is relevant all immemorial time.

- Just like person reveals oneself to another person by seeing good intention of other person. Similarly, Book SB also reveals more and more inner meanings to sincere reader who sincerely reads and hears SB to serve and love krsna with sincerity.
- Parikshit was so renounce that renunciation and detachment from the material enjoyment is very imp qualification to hear and speak SB. This combo of parikshit and sukhdev goswami is a perfect combo.
- While studying SB one has to make honest endeavor to be attentive hear the pastimes.
- There are 1000s of topics available in this world but the most Essential topic is krsna kathas.
- Just like honey bee goes to garden there may be so many things and this honey bee avoid all these things and goes and sits on flower and drinks honey of the flower. So, honey bee is not attracted to all the other paraphernalia which she sees in garden but she focused on honey on flower. Similarly, devotee is not attracted to so many material opulences object of the world but devotee is completely focused on hearing krsna katha and performing devotional service unto krsna.
- There are 1000s of gopas sitting with krsna and each gopas were getting realization that krsna is sitting right next to me face to face and to that degree krsna is inconceivable.
- Krsna is CEO and krsna has performed unimaginable, unfathomable pastimes. Although krsna is powerful and he is exhibiting lots of power to doing various activities that power he is exhibiting to please His devotees that he has a topmost powers he possess.
- Krsna has exhibited his inconceivable powers to reciprocate and love to each of this gopas. Krsna can outsource his powers to some of his incarnation to take care of this world but krsna would personally manifest his power to reciprocate his affection to his devotees. . This is the sweet aspects of energy.
- The maximum affection of krsnas energy is been seen in the reciprocation of His devotees.
- Krsnas opulences are unlimited and he manifest that qualities while reciprocating with devotees and it is the topmost opulences. Krsnas reciprocation with devotees is so excited than killing the demons. The simplicity and innocency are the special features of vrindavana. You may see majesty of krsna in golok dham or dwarka also, but vrindavan is filled with simple love and devotion. This is vrindavana speciality.
- Although brahma was pure devotee of krsna but still brahma was slightly bewildered and he wants to test krsna and brahmaji observed whole thing and gopas was becomes anxious and krsna said my dear friends you should not be anxious for calves because I am there. Since krsna is there with us as a protector then there is no need of anxieties. When gopas were worried of their calves krsna makes assure that do not worry you have your lunch
- Krsna says BG that anayas chintayanto mam ye janah pariyupasayte if one sincerely love krsna and serve krsna without thinking ones mind there is no misery and their consciousness is totally absorbed in krsnas remembrance and service unto Him. To the degree if a person remembers krsna in his consciousness derives all protection from krsna. Yoga kshemam vahamy aham...our endeavor to approach krsna means yoga. Kshemam means krsnas endeavor to take reciprocation to protect us.
- We must understand when we have intense love than you have eagerness to do things personally to our beloved person. Similarly, krsna takes personal care and protection of my devotees - yoga kshemam.
- Here, brahmaji wants to test krsna, and here glowworm is competing with sun. how foolish it is. Whatever brahmaji has power it cannot be comparable with krsna. While krsnas mystic potency with sun and brahmajis mystic energy can be compared with glow worm. Krsna is yogesvara or master of mystic powers. Its like measuring sky with your hands. Similarly, brahmaji cannot measure krsnas powers.

- Brahmaji was not able to steal the calves and gopas because they are the eternal associates of krsna and how can a demigod can steal them? Krsna had created illusory boys and calves that brahamaji had stolen them. Just like brahmaji had showed his extra power to illusory cows and calves which created by krsna but Brahmaji couldn't able to show his extra power to krsnas eternal associates.
- If you have genuine desire to serve krsna and you are particular to serve krsna with deep intensify than krsna is obliged to fulfil your desire. When we are envious of another devotee's exalted position than krsna will not be happy but when we appreciative of that devotee's position and good fortune, krsna will give similar fortune to us.
- If you wants to desire to be fulfil in certain way what you want than appreciate that devotee's good fortune and you sincerely desire that fortune to render service unto krsna.
- Actually every single entity loves krsna than anyone else in entire world in our pure state our consciousness. But when our consciousness get impure with so many material coverings or tendencies. Our innate nature to love krsna gets covered. When egosist tendencies are removed from the soul than our real love for krsna manifests. This is our original consciousness.

Thank you very much  
Hare Krsna
