By- HG Gauranga Darshan Prabhu

- Putana had a very malicious intend to kill the Supreme Lord Krishna. And Krishna is giving shelter to her in the spritual relam. Who is more merciful than Krishna?
- If Krishna can give mercy to someone who has come to him in negative intentions. What to speak about the person who is coming to take shelter of Krishna in positive intention.
- Krishna killed Putana so effortlessly and he did not use any weapons. Neither he expanded himself or used his bow and arrow. Or any other thing.
- Mother Yashoda is the epitome of vatsalya rasa. Krishna is Very kind and inclined towards Mother Yasodha.
- In our pure consciousness we love Krishna more than anyone.
- Though Krishna is Supreme Personality Of Godhead still all the residents of Vrindavan they love Krishna not because Krishna is Lord. They consider Krishna to be their friend, son. It is pure love.
- They never think Krishna is Lord. They think Krishna is small child and they need to take good care of him.
- Though Krishna is feeding everyone still Mother Yashoda is thinking that if she will not give him milk he will not grow nicely. The motherly love of her towards Krishna.
- The motherly gopis wanted to protect Krishna by applying various cow products on Krishna's body and was chanting various mantras for protection of Krishna.
- The holy names of Krishna give protection to all living beings. And when Gopis are chanting the Holy name of Krishna to protect Krishna that is the indication for us that we have to also chant the holy names to protect ourselves.

- The community which has Krishna in center is the best community. And the best community in the whole cosmic is Cowherd community of Vrindavan because all their activities are done keeping Krishna in center.
- Simply by chanting holy names of Krishna and applying cow products one can save their children from any calamities and dangers.
- As Putana's body was burning a very good fragrance was coming out from the smoke. By the touch of Krishna the body of Putana became auspicious.
- When we come in contact with Krishna's Nama, Guna and Lila we are getting spiritualized
- Matter when it will come in contact with spirit it will become spiritualized.
- When Krishna touches something the object becomes purified and if anyone touches that object directly or indirectly that person also becomes purified.
- Krishna's mercy on Putana.
 - * She attained the position of mother in spiritual realm.
 - * Purified Putana's negativity.
- Render some service to Krishna with love and sincerity then Krishna will give all the mercy.
- Krishna's lotus feet are always in the heart of pure devotees.
- Krishna is worshipped by most exalted personalities.
- All the Demi Gods praise the qualities of Krishna in various poems. And all the scriptures are praising Krishna.
- Krishna's glories are so great that his glories are beyond any mental speculation and intelligence.
- Krishna always finds some reason to give mercy to even the sinful people. But devotees should not purposely commit mistakes. As much possible live a pure life.

- Ajamil chanted the name of Narayana in helpless state during the time of death and was purified. Though he didn't chant names of the Narayana indicating Narayana but was calling Narayana his son then also he was purified because he called one of the Krishna's name.
- Krishna can be powerful in all the situations. And all the living beings whatever powerful position they have they get it from Krishna only.
- Krishna is so merciful that he protects even demons. Even if he kills the demons he is giving the merciful punishments to demons. And all of them are delivered.
- Devotees responsibility is to take Krishna's mercy and dedicate their life for Krishna's service.
- Lord is never born by anyone. And that's why he can release anyone from bondage. He has a compassion to deliver us.
- He has capacity, compassion to deliver us and he has full knowledge about the needs of us.
- He is in our heart. And if we will surrender to him he will come to protect us.
- Krishna may sometimes give punishments but that is also a mercy because he wants to teach us something which is best for us.
- Krishna urges us not to commit any mistakes.
- Krishna is never happy to see his part and parcels in suffering.
- Krishna never disowns his part and parcel.
- Krishna's mercy is so powerful that it can uplift different people. We should be diligent enough to access that mercy by sincerely practicing the devotional life that is given to us by his pure Devotees and the various Acharyas.
