When krsna descends in this material world, krsna empowers to be his representatives. Ami toh kangala pache pache....when lcm began harinam sankirtan in jaganath puri. When lcm began harinaam he allowed everyone to participate. And seeing this kirtan nityanand pr predicted that this harinam sankirtan will spread all over the planet. Senapati bhakta SP he appeared and in 1965 set out west and 1966 he estd ISKCON in NY, and so many intimate associates started connecting with SP and one amongst is BCSM who joined him In a very short period of time SP given him many responsibilities and his personal service. BCSM is so fortunate who served him directly a senapati bhakta SP of LCM in his last moments in vrindavana dhama. And he is preaparing his next pastimes to go B2G.

Not only empowered him to preach kc all over world but also gives responsibilities to write translation of SB and CC in bengali. SP was awake to write this commentary for us and that particular service of SB and Cc has given to BCSM.

BCSM when he was in global preaching that he estd kc in so many kc to the whole world. In that period , saintly person is well known all over the world but not to many across the world read or heard of SP. So therefore, BCSM he spent a few years contemplating ideas and planning and took responsibility executing SP series. Millions of people awared by this contribution, Because vaishnavas lives is extremely purifying and transforming and anyone listens this pastimes than they go through lives transformation experiences. And so we find that BCSM's dedicated preaching in iskcon is he has total shelter and faith of SP and his instruction.

Amongst his instruction BCSM often repeated SP instruction that - if we want to please SP than you must show that love how you co-operate. BCSM another emphasized is unity in diversity. And than GBC is ultimate mangerial - BCSM is a collective management he focusses on trying to imbibed the spirit that SP inculcated and trying to respect the will and desire to putting faith in the body of GBC.

BCSM points out and he said that all the potency for us to lead within a spiritual society comes by pleasing our predecessors acaryas.

This really touching because we must understand that what SP given us and its deep gratitude toward to all the leaders of iskcon who leads us through various kinds of ups and downs in difficult conditions. Many times without trying to understand sometimes in our level we judged them without appreciating amazing setups which has given by SP.

BCSM said - result of gaudiya math has been seen when they estd acharyas and when that acharya has difficulty and because of that faith of entire gaudiya math has shaken and very soon everything collapased. Wherease iskcon we have so many challenges amongst decades but because we always have collective management as GBC so inspite of so many challenges we could sustained preaching movement but we could actually expand ISKCON over the last 30 years.

BCSM is prominent siksha guru in appreciation SP and His mood and what SP's intention are with respective in establishing leadership in iskcon. BCSM is the trustees of gbc college. BCSM spends max session in gbc college batch to

Thus BCSM has deep faith he has in in his process of training a future leader of iskcon and prominent leaders and GBC members they make special efforts to come and teach and give priority to teach to make upcoming leaders. This creates tremendous faith in institution, hearts, and prominent leaders of iskcon must invest their precious energy and time in training next generation of leaders and sharing experiences with the leaders. We must express gratitude to maharaja for investing genuine energy care and attention for investing care in iskcon.

BCSM has so much faith to take this iskcon further

When ISKCON is represents in kumbhamela but when they comes to iskcon camps then we must be instrumental in making SP and His name proud by representing which transforms their hearts. We must present sanatana dharma in our camps whoever comes here they will feel they not getting anywhere in other tents.

Thank you very much
