IYS Yatra Day 3

DAY 1 - EVENING CLASS

Topic - Jeevdaya (preaching is the essence)

By IYS admin (prem kishor pr)

Notes -

There is no servants dear to me who is the dearest to krsna. when we know when we become dear to krsna, we becomes dear to devotees. one who contribute in mission that makes our life transformation to all class of people(it's not open just to senior person but this is preaching open to all. Here, preaching is the essence😊, not nuisance)

for eg, if prasadam is not ready in time, if cooking is not in time, if not winding up team here is not available than what will happen... preaching is the essence that bring inspiration to others. for eg, even before we finish announcement of bhagvad gita distribution that person took bhagavad gita. this is just inspired from others, by mercy of devotees. this preaching essentially means activities of compassion and makes connection in others. preaching is distribution of essence of the supreme Lord. mother and father may not be appreciable what you are doing, but you should inspire them to take this spirituality seriously and bring transformation in their personal lives by your personal example.

jis bachhein ko nanga ghumte dekha hai

jis bachche ko sab karya karte hue dekha hai toh wo khush kaise dega? nahi similarly, if you have pride in ourself then you can loose the power to transform others to bring krsna consciousness.

whatever happiness gives you in temple that brings our nature compassionate to serve and bring happiness in others. when you are preaching to others, it's not preaching, it's act of compassions.

achar or behavior is not properly than we can't inspire others to take the krsna consciousness in their lives.

just like you may chant 16 rounds or you may attend mangal arti just for sale of attending and you don't have enthusiasm to serve others. than how you can bring transformation to others?

Be compassionate to self, first and compassionate to others to make other krsna consciousness and make life blissful.

thank you very much
