Topic - Becoming qualified to attain His dham

By Keshavanand Pr

Notes

- SP said unless we are free from modes of material nature, we cannot go to B2G
- Sometimes it is said that when you chant and follow 4 regulative principles you will go to spiritual world or golok dham or when you practice kc then you go to B2G
- If you are sincere then you go to back to godhead if you properly chants and 4 regulative principles and the results we expect is when you follow this principles and what qualification you attain by following this principles that's matter.
- Like if you are appearing in medical exam if you get pass in exam then you will get medical college and if you are sincere in studying in medical college then what happens that you will get good knowledge and you get practical knowledge and you get passes successfully in exam
- The process of kc making you qualified to go to b2g and that qualification is to get freed from modes of material nature.
- Rupa goswami says that past karmas is like chick peas which get burned up by practicing pure devotional service and that is called bhaktva pakvagunashya then you get qualified to back to godhead
- Just like everyone takes coaching classes, do all the students passes? No, difference is that those students passes in exams because they got concept got cleared therefore they passes. Similarly, process of kc makes you qualified to attain a goal and that qualification is to burned up the past karmas of material modes of nature
- In Cc pratyaksha kim pramana - if you know something then you don't need to see something
- For vaishnavas, they don't need pramana and anything occupies space and time that is reality and illusion doesn't occupies space and time
- Anyone who reads scriptures without common sense then he is just like a blind man trying to see from spectacles
- Scriptures doesn't helps the person if they are mentally blind and if you are still under modes of material nature then you cannot go back to godhead and no matter how much you kc follow but you must follow kc in such a way that you must have understanding the process of KC
- We are following bhakti and by following this bhakti we can get rid from material nature and we can attain spiritual world of golok dham
- Entire process of kc is to get free from the modes of material nature and we must assess again and again our situation when we follow kc and following 4 regulative principles. Am I in modes of ignorance, or passion or goodness or shuddhasattva?
- Just like 8 years child wants to drive a car in highway and parents will say no. you will not drive because he is not qualified. Similarly, SB says something to us we should follow that and not that we follow blindly to ourselves, instead of following scriptures
- By power of bhakti, you attain golok dham.
- Passport is kc process (hearing, chanting and eat prasada) and visa is that we should not get influenced in this material modes of nature and from golok you will get visa to get golok dham

- This process of kc get burns up the 3 modes of nature and it gets ineffective
- LCM says yugaitam nimeshana - suniyam jagatam sarvam - influence of material nature becomes zero and this whole world made by 3 modes of material nature and everything is made by 3 modes of natures
- When you get in the process of kc then all the material nature on you acts on you becomes nullified by practicing kc.
- Bhaktya means devotion in separation for burning the modes of material nature and then we get qualified in the service of Lord
- Without achievement of getting in devotion in separation, we cannot get rid from this material modes of nature and to the degree we practice pds then we are getting rid from material nature
- We must have desire to have love in separation and without that we cannot get rid from material nature and we cannot able to please krsna and by serving krsna with the utmost purity, we can attain spiritual world.
- When we follow the process without goal, then we cannot achieve spiritual world
- If we practice pds with sincerity and single point attention and with no ulterior motive then we can achieve spiritual world
- By following the process of kc, what we want that's matter and that will lead you to attain the path and if we want to get cure from material world then we must follow the process of kc with sincerely by which we can get attachment with krsna and feel separation of krsna by which we can able to burn all the modes of material nature in us and in that condition we can able to serve krsna 24hrs with complete determination and with complete love
- When all modes of material nature get destroyed in us then how did you know that? And I will remember krsna and his pastimes. No. that kind will be tricky and this is the sign that you will get detached from the hellish material existence and you will get even detached from yourself
- Material existence is selfish life and everything is geared and directed on you and we just do this process of KC, just to fulfill our selfish desire
- Like Animals are those who do eating, sleeping, mating and defending and devotees are those who are not doing only this, but they practice. And devotees are like animals who just practice kc but we internally you have lust, anger, greed, etc.
- Spiritual existence means when we connect ourselves in krsna and practicing krsna consciousness sincerely and directed in the service of krsna. That is spiritual existence.
- Just like we learn bicycle by falling down again and again. Or if you have fear of drowning in water, then we don't learn swimming. But just stick to the process of krsna consciousness by which we can attain the eternal golok dham

Thank you very much
Hare Krsna

- **Every fall down makes us to introspect why we fall down.** And it is krsnas mercy that krsna teaching us how to get the holy dham by which we can learn from the fall down
- Fall down is the scheme of the process of KC and we see that krsna wants to teaches us that we are not mature in KC and you are correct
