

# Concluding talk - FB live on Artha forum

23 May 2020 22:51

Topic - How you business people manages ourselves which benefits to us in longterm.  
By Radhanath Swami

## Notes

Wisdom is knowledge that's built upon the foundation of practical experience. Brahma sutra begins from athato brahma jigya - an essential principles of human realization is self realization and we should understand who we are and when we understand that who we are that we can interact to the world in such a way that we can offer our benefit to the world. Dehi smin yatha dehe - that we are not this bodies - a living force or a soul is experiencing through body and mind and the nature of the soul is beyond death and birth and that is the part of supreme being, aham bija abija pitha - lord is a supreme father and we are the eternal loving being of supreme and when we understand that principle than we are going to apply in our life.

SP said philosophy without good character is practically useless. The whole transformation is to have values and how we live in this world. Time is constantly within us. For body, death is inevitable. Within our life, how we are going to share family with the world and that legacy that we leave behind. Its greatness of life.

SP said that the greatness of the person is estimated by how we tolerate our difficult situation. When storm comes and if our house unless has no foundation then our house become crumble. Similarly, storms are comes in our life will help them to live in our true nature or identity as soul as part of god then we understand that every living beings are bros and sis. All our environment is the sacred property of supreme being and we are sharing and taking care of it and we have responsibility to live in harmony by our true nature. Business is affecting in our every aspect of our life. The more you give in , the more we have responsibility we have to actually live with legacy, integrity, compassion and devotion to God

Thank you very much  
Hare Krsna
