July 2010 Volume 1 Issue 8

Respected devotees, this is to seek blessings of all of you in our humble attempt here to propagate Krishna consciousness to our labourers and in one veterinary university in Mathura. In Vedic literature its said – ‘go-brāhmaṇa-hitāya ca’. So according to this, brahminical culture and cow protection go hand-in-hand. Only brahmanas can understand the importance of cows in human society, sudras can not. To confirm this there is this excerpt from a conversation of Srila Prabhupada -----

----->

Tamāla Kṛṣṇa: Devotees are not prepared to work with cows and land.

Prabhupāda: Eh?

Tamāla Kṛṣṇa: They are not prepared.

Prabhupāda: Then? You have to engage laborer and spend two hundred rupees per head at least, including salary and food, and the production is nil. In this way, there must be ten thousand, twenty thousand expenditure. Am I right or not,.....

Actually, it's not that devotees aren't ready but in fact there is a lot of misunderstanding that has been propagated by the British about this living with land and cows – that it's very laborious. This they did very shrewdly and systematically. However it's not at all true.

Therefore, with this desire to remove this misconception we are trying to preach Krishna consciousness. For devotees it isn't laborious for they aren't greedy. Once we make people devotees and they join this project then it can convert in to a flourishing farm community or Vedic village where life is simple and focussed on Krishna consciousness.

Is this advancement?

For many Americans, protein makes up more than twenty percent of their diet, nearly twice the quantity recommended by the World Health Organization. Although inadequate amounts of protein will cause loss of strength, excess protein cannot be utilized by the body; rather, it is converted into nitrogenous wastes that burden the kidneys.

Protection of bulls and cows and all other animals can be possible only when there is a state ruled by an executive head like Mahārāja Parīkṣit. Mahārāja Parīkṣit addresses the cow as mother, for he is a cultured, twice-born, kṣatriya king. Surabhi is the name of the cows which exist in the spiritual planets and are especially reared by Lord Śrī Kṛṣṇa Himself. As men are made after the form and features of the Supreme Lord, so also the cows are made after the form and features of the surabhi cows in the spiritual kingdom. In the material world the human society gives all protection to the human being, but there is no law to protect the descendants of Surabhi, who can give all protection to men by supplying the miracle food, milk. But Mahārāja Parīkṣit and the Pāṇḍavas were fully conscious of the importance of the cow and bull, and they were prepared to punish the cow-killer with all chastisement, including death. There has sometimes been agitation for the protection of the cow, but for want of pious executive heads and suitable laws, the cow and the bull are not given protection. The human society should recognize the importance of the cow and the bull and thus give all protection to these important animals, following in the footsteps of Mahārāja Parīkṣit. For protecting the cows and brahminical culture, the Lord, who is very kind to the cow and the brāhmaṇas (go-brāhmaṇa-hitāya), will be pleased with us and will bestow upon us real peace.
