

Shikshashatakam Pr | God allows U - Turns

14 April 2020 21:52

Prerna Monthly Youth Festival
Topic - **God allows U - Turns**
By Shikshashtakam Pr

Notes -

We were talking about catchy topics. you may be recognized that after so many times coming to the prerna and you may recognize that there is very catchy topics.

1. Mistakes - Taking U turn

There may be another direction to take a right direction but there are some mistakes which can't turn. How many times you experienced the oops moment?

once I was giving class in nasik college - one girl come up and asked me that I am in dalmia than later I got to know that she is telling me that I am in dilemma.

We are trying to follow krsna consciousness that question may come up that are our mistakes are Krishna's life? are my mistake is ordain by him? - "Our mistakes is not Krishna's purpose, but our mistakes definitely are included in Krishna's plans."

What is the purpose? what is your qualifications? but when it comes in Krishna's decision then Krsna sees our future and plan our present. We may not know our future, so you may inconceivable for knowledge about your present asking why you are doing like this or like that. For example - when I was in Delhi for national tennis, we are searching for national coaches. I was in bus stop, waiting for bus and one lady started begging unto me. sahab! I came from haryana, wanted to go back to haryana and don't have enough money than that I don't know what happens I given every rupees to her. I was having 3000 rupees and then I realized I have only 3000 rupees in my pocket and I had given it all and then started walking to hockey stadium because I don't have money. And, by walking I got to know one man driving it over national tennis stadium than he encouraged me to sit inside of his car. and then I realized that he is the one professional tennis player that I am looking for, for our coaching tennis practice.

Similarly, There is someone who is looking for the future and he knows our present and future. Therefore, Our mistakes is not Krishna's purpose, but our mistakes definitely are included in Krishna's plans."

Google Maps - it will never give up on you. the moment you take wrong turn, it gets recalculating and makes you come in a right path. no matter how many times you take wrong turn, no matter what happens Google map will never give up on you. Even though, you goes frequently on wrong turn, she will not telll that enough is enough abhi rasta khud dhundlo. She will never give up on you until you reach the destination.

Similarly, if Google map will never give up on you, Krsna is not **X** going to give up on you saying that there is U turn ahead. This much we need to have the faith on Krsna that

there is U turn in your journey to recover the mistakes.

Mistakes -

- It's not a mistake to make a mistake but it's a big mistake to keep repeating that mistake.
- A mistake repeated several times becomes your decision
- Every mistake should have a shelf life

--> For example - when you were an infant baby you may wetted your diaper but imagine now the baby after 20 years was CEO of company and he wetted, this should be like non repentive mistakes. We are aware of football 🏈, that whoever makes the fewest mistakes wins the match. like for example - goal keeper if makes Fewest mistakes that helps team to win the match.

- Football is a game of mistake whoever makes the fewest mistakes wins.
- in life also, many times we commits unforced error. And one of the most unforced errors is that we have the tendencies to commit mistakes.
- Most mistakes occur when we delay saying NO Or YES.
- mistakes are directly proportional to timing aw
- Beautiful quote I had came across - it's so easy to look cool when have done nothing.
- We have right to commit a mistake, but we don't have right to becoming a mistake.

--> Does a mistake made by others also include in Krishna's plan for me?

yaha log apni galti nhi maante toh dusro koh kaisa manega? (if the person is not accepting his or her mistake than how can he or she will accept other's relation?)

---> We are allowed to make a mistakes but dont become a mistake.

- Admit your mistake
- Learn from your mistake
- Never repeat your mistake

--> 3respones to mistakes

- one who is in Satvaguna - Learn a lesson
- one who is in Rajoguna - Blame others
- one who is in Tamoguna - Go into depression.

if somebody says, I will be like this or like that. Even a mode of goodness commit mistake but he always learns the mistakes.

Therefore, this acronym TURN is -

- T - Tendency to commit mistake
- U - understand the consequences of those mistskes
- R - Repent to change yourself
- N - Never repeat the mistake

Just because we are devotees, doesn't permit us to commit mistakes again and again
And just because we have committed mistakes, doesn't mean Krishna will forget our

devotion.

Life is like a car journey. Speed breaker is like a outside Life style and Internal brakes are like a self control which can helps to repent our mistakes

SSS formula -

- S - small
- S - simple
- S - steps.

You may be driving alone your Krishna consciousness journey and your friends may be on the different lane. So, don't get distract from them.

ek ek ka kuch farak nhi padhta lekin ek aur ek kar karke bahut farak padhta hai - walking one step ahead that doesn't make sense, but walking step by step by step, makes lot of difference in our lives.

---> Krishnas plan is to arrange a purposeful lives.

Therefore,

G - Grant's independence

O - Offers counsel

D - Delivers Consequences

Krishna's loves that does us 2 things for us - Guards us and at the same time guides us. Krishna became guard of arjuna and at the same time He also became guide of arjuna.

If Ram and Krishna doesn't want to give up on duryodhan or ravana that one day they will know me or come toward me. Similarly, even we coming into Krsna consciousness we might commit mistakes and wanted to give up that seeing other people going on another lane and you are alone driving your path that no one seems to be, don't give up that one day they will also come in the right path.

Therefore, I want to give take home message to every one of the person came for the prerna festival that -

manjhil toh hum paakar rahenge

bhalehi ladkarar se sahi

kayaar toh wo hai jo ghar se niklehi nahi

Thank you very much

Hare Krsna
