Morning SB Class

Topic - Developing bhakti in one's heart

By Gaurvilas Pr

Notes -

Krsna himself telling the importance of mediating in the presence of super soul present in all living entities. in BRS described as Smriti means remembrance of supreme Lord and connecting to supreme Lord. meditation means we must focus name, form, pastimes, etc.

✍ 1 naam dhyān - adhyāpiyāh - till the day even today whoever takes the name of Krsna will experience the tears for the holy name of krsna. kaviraj goswami said if you are chanting offenselessly or in offenselessly if we know Panchantatva, When we take shelter of panchattava we will feel a separation for krsna prema.

- although sahajiyas don't know the principle of philosophies and rules. even their chanting invokes tears, But as soon as they come in the contact with pure devotees sahajiyas life becomes successful. When someone chants nityanand prabhu their krsna prema revive in their heart. and someone is chanting name and doing offences then will not get symptoms of ecstasy. one can get a love of God when ones chants holy name of Lord Without offences.

- uttmashlok said prabhupada that should we chant bhajans while having prasad. SP said we can chant. Ushlok said that which is the favorite tune in hare Krsna mahamantra. SP said, all of them.. So, this is absorption or krsna prema.

✍ Power of holy name has a power to evolve from this material activities. if someone is chanting the Lord and not feeling love for Lord.

✍ tabe jane apraadh tahate prachur because he has committed lots of offences. so what's the hope? when we take shelter unto LCM and nityanand pr and follow the footsteps of LCM and nityanand pr then very soon we will get pure ecstatic while chanting.

- Because of this yavnavas are accustomed to chant haram and will be deliver soon by naamabhas. Great devotees also chant like O Lord please save me. haridas thakur says chanting of Lord is so powerful even if it's indictatng other than God but still that it's a instance of nambhaas.

✍ • This is the quality of chanting the holy name of Lord. even if you chant in a improper way will not leave it's propensity

👉 • quality of naamabhas is just by naam bhaas get all the sinful activities got

destory and material sins get can get ceased.

🙏 • rnsn said, when you get more difficult to concentrate on holy name that is the best time you have to do maximum effort while chant. krsna is concerned about your endeavor. when devotees are chanting is like ecstatic. and for sadhakas is like a austerity .when we endeavor to please krsna. krsna got pleased. Krishna is aware of our endeavor. we sadhakas must keep struggling in the sadhana bhakti so that we can control our senses with faith determination,

🙏 • Gauranga pr said it's our responsibility to engage ourselves in the service of krsna whether you are successful or unsuccessful in controlling senses, you must endeavor to control the senses. cow means senses and it's krsnas responsibility to bring our senses back and our responsibility is to focus on our service unto krsna, our endeavor is needed. anyways, krsna will bring back our senses in the services of Krsna. if we take shelter unto SP.

🙏 2 roopdhyan - when we meditate 🙏 unto the beautiful object of Lord than Lord glances unto living entities and creates a desires to serve❤️ and His smile😊 creates hope and encourage😊 that we will also cross this material existence.

🙏 SB says, seeing the Lord it's like a beautiful festival😊 of Lord. Kapila dev said that we must meditate unto the lotus feet of the Lord long time, we can destroy our ignorance or darkness or mountain of sin get destroy after focusing unto the Lord❤️.

🙏 Our anarthas 😞 can able to destroy by the blessings of narayana because they always mediate on flower of narayan. When we meditate on the glance of Lord than the great darkness in the heart and miseris they have, that get destroyed by focusing on Supreme Lord's beauty.

🙏 when devotees focus on smile than we will free 😊😊 from all sinful activities and sinful tendency. Rather than meditative on how we become free from material desires, we must meditate on Lord for increasing our spiritual desires. Kaviraj goswami said that lotus face of God is the most beautiful object of the whole universe. Even krsna is seeing His beauty that He also wants to taste that beauty. once rnsn was in new vrindavan and SP was coming to janmashtami festival and saw deities in alter and SP said that Your radha Vrindavan chandra is most attractive. They came like a more attractive than American body and girls to attract their hearts but please be careful that SP pointing out pancharatra vidhi means worshipping the Deity and bhagvat vidhi means following the various limbs of PDS.

🙏 There are two rales. We must be careful that if we are not attentive in hearing and chanting then as after sometime you will feel that why my spiritual master left me with this burden. Therefore, As we are chanting and taking darshan of lord - we have to be very eager and attentive to read SP books so that we can understand the important.

✿ 3. gunadhyan - kaviraj goswami said, \*when we mediate unto the qualities of Lord then all the sinful tendency get destroyed.

🕒 everyone is attracted to Lord. just like a person is attracted more to form than name and more attracted to qualities than form. Similarly, The more you get fascinating by qualities of krsna, you will be attracted more about activities also.

✿ When we meditate the qualities of krsna then we can selflessly attracted to Krsna. nsm was sharing that when we share the qualities of Lord in relation with devotees then we develop more intimate relationship with devotees.

when we mediate with Lord, we must please that person, and to please that person, we must follow unto the footsteps of that person. and we can be free from envy, and bad activities when we focus unto the supreme Lord by hearing His pastimes and reading the glories of name than we can be free from all types of lower tendencies. Lord's qualities are mixed with so many rasas and we get ruchi to hear the glories of Krsna and it's an eternal festival for mind

✿ 4. Liladhyan - focus on the lilas of supreme Lord. life of devotee is to focus on the lila of Supreme Lord. there are various devotee there is different moods and every person Krsna had left that mood to that person. it's a duty of devotees to engage in the pastimes of Lord. Pastimes of Krsna like a lotus and a swan like devotees will find in that place where Krsna katha is happening.

🕒 When devotees hear the glories and lila of Lord than this two things of life. 1. free from sinful activities and 2. attains supreme destination

✿ 5. Sevadhyan - by being absorbed in the service of Lord automatically we can serve naam, roop, guna and lila of the Lord. The more you think as servant than more you will advance in spiritual life. Highest service is to serve the youngest devotees because he is helping that person who has dedicating his life in the service of Krsna. that service is highest.

✿ Therefore, we must focus on all this naam, roop, guna, lila and seva of Lord by which we can remember Lord at the time of death. Krsna is the most beautiful that conquers the gopis of vrindavan and pastimes of Lord can be astounding to goddess of fortune. Beautiful character of Lord always gives pleasure to everyone and attractive to everyone.

Thank you very much  
Hare Krsna
